

SPACE EXPLORATION ALLIANCE

Who We Are: The Space Exploration Alliance is an unprecedented partnership of the nation's premier non-profit space organizations who have a combined membership of more than 1.2 million people throughout the United States.

Vision Statement: The Space Exploration Alliance supports the Vision for Space Exploration as a bold and sustainable mandate for human and robotic exploration of the solar system that will help ensure American technological and scientific preeminence in the 21st century.

Mission Statement: The nation's premier non-profit space organizations will work together to communicate to the American public and elected officials that the Vision for Space Exploration is a compelling national priority that is technically and fiscally achievable, will inspire the nation's youth and the public, reinvigorate the traditional aerospace workforce and industrial base, and foster job-creating entrepreneurial activity across the entire economy.
